

How do I receive communion?

- If you have hand sanitizer with you, we ask you to sanitize your hands prior to coming forward.
- Follow the new pattern for receiving the Eucharist as explained at communion time.
- Both you and the minister will have masks on when you receive.
- You may receive in the hand only, no communion “on the tongue” right now and no additional hosts will be given out for those not in physical attendance of the Mass.
- Allow the minister to place the host in your hand as they say “Body of Christ” and reply with “Amen”.
- Move to the next available spot on the floor that has a “Please Stay 6-feet Apart” decal.
- Partially remove your mask and consume the host.
- Replace your mask fully.
- Return to your seat.

We thank you for your patience as everyone gets used to these new procedures. Communion will more than likely take longer than it used to... your patience and attention to detail will be key to having a smooth Eucharistic Procession.
